Shaylah (Shay) Fleming
Engineering Student

Professionally and creatively driven to learn, apply, and provide greater services that enhances the needs of your company or agency.

Experience

October 2020
Hackathon
I participated in my first hackathon with a group of diverse team members. I came up with the idea of creating a Discord bot called Zoomie: The Self Care Bot. We survived 2 of the 3 rounds of judging.

June 2013 - Present
Technology Tutor for Seniors
When requested, I would assist the local senior citizens on specific computerized tasks. I'm usually called to work on software but, I also operate on hardware.

2009 - Present
Community Service
I have assisted in many services projects such as visiting the sick and shut-in and face painting for local football games. I have accumulated over hundreds of service hours.

March 2017 - May 2019
Self Employed Math Tutor
I have conducted tutorials on the categories of Algebra 1 and 2. The tutorial sessions were successful. Success was determined by the student's comprehension.

Education

2019 - Present
B.S. Computer Engineering
Florida A&M University

2014 – 2019
High School Diploma
Suwannee High School

Skills

- Photoshop
